

IVAN LUMINARIA

Oracle DBA & Performance Tuning Expert

Rome, Italy · (+39) 335 727 1217 · ivan.luminaria@gmail.com · [linkedin.com/in/ivanluminaria](https://www.linkedin.com/in/ivanluminaria) · [ivanluminaria.com](https://www.ivanluminaria.com)

PROFILE

Senior Oracle DBA and Performance Tuning Expert with nearly 30 years on mission-critical Oracle databases, including Exadata, RAC, Data Guard and Oracle Cloud (OCI, Autonomous Database). Deep expertise in AWR, ADDM and ASH analysis, complex SQL tuning, instance optimisation and wait-event diagnosis. Solid operational grounding in backup & recovery (RMAN), security (TDE), installation, patching, migrations and storage management (ASM). Performance tuning remains the primary specialisation — the discipline that keeps demanding systems available under real workloads.

AREAS OF ENGAGEMENT

- **Database Health Check** — structured assessment of performance, reliability, capacity and latent risks, with an evidence-based report and a prioritised roadmap.
- **Post-Incident Root Cause Analysis** — incident reconstruction on real data (AWR, ASH, wait events, application and infrastructure logs), separating causes, consequences and correlations.
- **Ongoing DBA leadership** — advanced tuning, upgrade and patching plans, HA/DR strategies, coordination with development and infrastructure teams.
- **Modernisation advisory** — evaluation of Oracle → PostgreSQL migrations, cloud database services and Autonomous Database moves, with cost/risk analysis independent from vendors.

KEY RESULTS

- About **1,500 MySQL and PostgreSQL instances** administered for a national postal and logistics operator.
- **30+ critical Oracle databases (70+ instances)** on Exadata for a telco with **20M+ prepaid mobile users**; up to **800M call records per day**; critical queries **under 500 ms** under 24/7 on-call.
- Critical analytical batches cut **from 4 hours to under 30 minutes** (Oracle on OCI and Autonomous Database).
- Multi-country DWH across **4 European countries** supported at DBA layer: **60,000+ lines of PL/SQL**, full daily load **under 2 hours**.
- ETL/ELT pipelines integrating **15+ heterogeneous sources** on datasets above **2 billion rows**.

CORE EXPERTISE

- **Oracle Database Administration:** Oracle 8i–21c, Autonomous Database · Exadata · RAC · Data Guard · GoldenGate (basic)
- **Advanced Performance Tuning:** AWR, ADDM, ASH, Statspack, SQL Trace/TKPROF, Explain Plan · Hints, SQL Profiles, SQL Plan Management · SGA/PGA tuning, wait-event analysis · indexing (B-tree, Bitmap, Function-based), partitioning (Range/List/Hash/Composite), compression
- **HA/DR & Security:** RMAN backup/recovery/cloning · Data Guard, Flashback · TDE, privilege management, auditing · ASM, tablespace management
- **Installation, patching, migrations:** new instance install, PSU/CPU/RU, version upgrades, cross-platform migrations
- **Cloud:** Oracle Cloud Infrastructure (Compute, Storage, Networking, Database Services — VM DB, Bare Metal, Exadata CS, Autonomous Database) · AWS Aurora PostgreSQL · Azure Database
- **Other databases:** PostgreSQL (admin, tuning, partitioning, replication) · MySQL (admin, replication, InnoDB optimisation)
- **Tools & scripting:** OEM Cloud Control, SQL Developer, SQL*Plus, Toad · PL/SQL, SQL, Unix Shell scripting

EXPERIENCE

IDEA DB CONSULTING S.R.L. — Sole Director · Senior Oracle DBA & Performance Tuning Expert · 2021 – present

- **Generali Assicurazioni** (Feb 2024 – May 2025): Oracle DBA and advanced performance tuning for insurance-sector applications on 500 GB–8 TB databases; AWR/ADDM analysis, SQL optimisation, proactive bottleneck resolution.
- **Atradius**, Surety division (2022 – Jun 2025): DBA layer supporting the multi-country DWH (60,000+ lines of PL/SQL ETL, full daily load under 2 h) in OCI.
- **FAI Service** (2021 – 2023): Oracle 19c administration and tuning in OCI for ETL and Oracle Analytics Cloud dashboards.
- **Finwave** (2020 – 2022): Oracle DBA and tuning for financial applications with millions of daily transactions.

- **Banking, Telepass and other clients:** batches from 4 h to under 30 min in OCI and Autonomous Database; ETL/ELT from 15+ sources on 2B+ rows; RMAN, OEM, patching; PostgreSQL DWH as cost-effective alternative to Oracle.

SILICONDEV S.p.A. — Senior Database Consultant, MySQL & PostgreSQL DBA · Jul 2025 – present

- For POSTE ITALIANE: ~1,500 MySQL and PostgreSQL instances across production, certification and development; performance monitoring, query tuning, replication management, capacity planning at enterprise scale.

NIMIS CONSULTING S.R.L. — Senior Oracle DBA & Performance Tuning Expert · 2020 – 2022

- For TIM / Huawei: 30+ critical Oracle databases (70+ instances) on 3- and 5-node Exadata clusters; direct responsibility for AWR/ADDM analysis, SQL tuning, indexing, partitioning and compression; ASM and TDE; 24/7 on-call for critical incident resolution.

Freelance consultant — Senior Oracle DBA & Performance Tuning Expert / DWH Architect · 2013 – 2020

- Oracle DBA and tuning services for banking, insurance and telco clients; complex SQL and instance tuning; RMAN backup and recovery; Oracle Data Guard HA/DR with switchover/failover procedures; small technical teams in migration and upgrade projects.

Earlier career · 1997 – 2013

- **Auselda AED Group** (2009 – 2013): Project Oracle DBA and performance & tuning for the Italian public sector; SQL and ETL tuning for DWH systems.
- **Oracle Italia** (1999 – 2009): Oracle DBA and performance roles for TIM, Vodafone (Italy and Spain), Bank of Italy, Generali; Oracle trainer 2000 – 2001 on DBA and Performance & Tuning courses.
- **S.EL.DAT.** (1997 – 1999): software developer for Telecom and Rover Italia; junior Oracle DBA and DB monitoring.

EDUCATION & LANGUAGES

- Computer Engineering studies (Software Engineering), Roma Tre University, 1994 – 2000 · Scientific high school diploma, 1993 · Advanced English C1/C2, The British Council, 2003 – 2004
- Italian (native) · English C1/C2 · Spanish C1 · Romanian C1 · French A2

I authorise the processing of my personal data pursuant to Art. 13 of EU Regulation 2016/679 (GDPR). Rome, September 2026.
