

IVAN LUMINARIA

Technical Leader for Mission-Critical Databases

Rome, Italy · (+39) 335 727 1217 · ivan.luminaria@gmail.com · linkedin.com/in/ivanluminaria · ivanluminaria.com

PROFILE

Technical Leader with nearly 30 years on mission-critical Oracle, PostgreSQL and MySQL databases and enterprise Data Warehouses. I work alongside CIOs, CTOs and IT Directors when a data system slows down, stops or needs a new direction: I read the whole chain — application, SQL, database, operating system, storage, network, data architecture — and explain every step to the people who decide. Three technical pillars (database administration, performance & troubleshooting, data warehouse & data architecture), held together by team coordination and knowledge transfer.

AREAS OF ENGAGEMENT

- **Database Health Check** — structured assessment of performance, reliability, capacity and latent risks, with an evidence-based report and a prioritised roadmap.
- **Post-Incident Root Cause Analysis** — incident reconstruction on real data (AWR, ASH, wait events, application and infrastructure logs), separating causes, consequences and correlations.
- **Ongoing technical leadership** — independent technical assessments, coordination across development, DBA and infrastructure teams, governance of architectural decisions.
- **Data Warehouse design** — end-to-end DWH and ETL/ELT pipelines on Oracle and PostgreSQL.

KEY RESULTS

- About **1,500 MySQL and PostgreSQL instances** administered for a national postal and logistics operator.
- **30+ critical Oracle databases (70+ instances)** on Exadata for a telco with **20M+ prepaid mobile users**; up to **800M call records per day**; critical queries **under 500 ms**.
- Critical analytical batches cut **from 4 hours to under 30 minutes** (Oracle on OCI and Autonomous Database).
- Multi-country DWH across **4 European countries: 60,000+ lines of PL/SQL**, full daily load **under 2 hours**.
- ETL/ELT pipelines integrating **15+ heterogeneous sources** on datasets above **2 billion rows**.

CORE EXPERTISE

- **Databases:** Oracle 8i–21c, Exadata, RAC, Data Guard, Autonomous Database · PostgreSQL 14+ · MySQL enterprise · HA/DR (RMAN, Flashback, switchover/failover) · security (TDE, privileges, auditing) · ASM · patching, upgrades, cross-platform migrations
- **Performance:** AWR, ADDM, ASH, SQL Trace/TKPROF, execution plans, SQL Profiles, SQL Plan Management, indexing, partitioning, compression, cross-layer diagnosis
- **Data Warehouse:** Kimball & Inmon, star and snowflake schemas, SCD, bus matrix, PL/SQL ETL/ELT, ODI, OWB, Oracle Analytics Cloud
- **Cloud:** Oracle Cloud Infrastructure, Autonomous Database, AWS Aurora PostgreSQL, Azure Database
- **Leadership:** distributed teams of 3–7 people, Agile/Scrum, ~10 projects (€100K–€500K), Jira, MS Project, Git/GitHub, mentoring and technical training

EXPERIENCE

IDEA DB CONSULTING S.R.L. — Sole Director · Technical Leader, databases & DWH · 2021 – present

- **Generali Assicurazioni** (Feb 2024 – May 2025): Oracle DBA, performance tuning and DWH project lead on 500 GB–8 TB databases; direct client interface on requirements and scope.
- **Atradius**, Surety division (2022 – Jun 2025): DWH architect and PM lead; unified Oracle DWH for 4 European countries, 60,000+ lines of PL/SQL, daily load under 2 hours.
- **FAI Service** (2021 – 2023): snowflake data model on Oracle Analytics Cloud, ETL on Oracle 19c in OCI.
- **Finwave** (2020 – 2022): advanced PL/SQL and query optimisation for financial applications with millions of daily transactions.
- **Banking, Telepass and other clients:** batches from 4 h to under 30 min; ETL/ELT from 15+ sources on 2B+ rows; PostgreSQL DWH as a cost-effective alternative to Oracle.

SILICONDEV S.p.A. — Senior Database Consultant, MySQL & PostgreSQL DBA · Jul 2025 – present

- For POSTE ITALIANE: ~1,500 MySQL and PostgreSQL instances across production, certification and development; performance monitoring, query tuning, replication, capacity planning.

NIMIS CONSULTING S.R.L. — Senior Oracle DBA & Performance Tuning Expert · 2020 – 2022

- For TIM / Huawei: 30+ critical Oracle databases (70+ instances) on 3- and 5-node Exadata clusters; 24/7 on-call; SLAs under 500 ms; ASM and TDE.

Freelance consultant — Project Manager & Senior DWH Consultant · 2013 – 2020

- ~10 projects (€100K–€500K) in banking, telco and services; teams of 3–7 in distributed, multicultural settings; DWH pipelines handling 500M rows per load; Oracle Data Guard HA/DR.

Earlier career · 1997 – 2013

- **Auselda AED Group** (2009 – 2013): DWH architect and Oracle project DBA for the Italian public sector.
- **Oracle Italia** (1999 – 2009): DWH architect, DBA and PL/SQL developer for TIM, Vodafone (Italy and Spain), Bank of Italy, Generali; Oracle trainer 2000 – 2001.
- **Etnoteam** (1999) and **S.EL.DAT.** (1997 – 1999): software development and junior Oracle DBA.

EDUCATION & LANGUAGES

- Computer Engineering studies (Software Engineering), Roma Tre University, 1994 – 2000 · Scientific high school diploma, 1993
- Italian (native) · English C1/C2 · Spanish C1 · Romanian C1 · French A2

I authorise the processing of my personal data pursuant to Art. 13 of EU Regulation 2016/679 (GDPR). Rome, September 2026.
